The following is an examiner's statement of reasons for allowance:

Wu '002 (col 8 line 44) utilizes aromatic polycarbonates rather than aliphatic polycarbonates now claimed. Kakiuchi and Ichikawa form thermoplastic urethanes rather than the thermoset urethanes now claimed.

The declaration of 6/16/04 at least shows conception of the invention prior to the Cavallaro reference date. Only diligence between the reference date (3/14/01) and the applicant's filing date (3/15/01) is necessary. Filing the application in one day appears to be reasonably diligent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
